

Elite Diagnostic Imaging Service™

GET AN MRI OR CT SCAN IN DAYS, NOT MONTHS

In many provinces, wait times for non-urgent scans can take months, impacting pain and disability or intensifying symptoms. When Elite Diagnostic Imaging Service is included in your Best Doctors membership¹, we can reduce your wait time for an MRI or CT scan so that you and your treating physician can quickly move forward with diagnosis and treatment.²

HOW THIS BENEFITS YOU

Wait Times

Best Doctors can reduce wait times for MRI and CT scans to a matter of days, which will help you get a faster assessment of your symptoms.

Convenience

Best Doctors will arrange for an MRI or CT scan on your behalf. Results can be accessed within days after your scan.

Peace of Mind

Knowing you can get a diagnostic scan quickly, reduces your stress and uncertainty. You'll have peace of mind when you can get the answers and the treatment you need as soon as possible.

Elite Diagnostic Imaging Service™

HOW IT WORKS

1. Get started by calling or emailing Best Doctors.
2. Best Doctors will contact you to clarify the required diagnostic imaging.
3. Best Doctors will connect you with an imaging clinic where an appointment can be booked. Within two days of your scan, the radiology report will be sent to your referring physician so you can proceed with your care.

¹ EDIS availability is based on member's location in Canada.

² All expenses and arrangements associated with medical treatment (excluding the cost of the MRI or CT scan), travel and lodging are the responsibility of the member.
